It's really hard to play when the tiles are incredibly small, the tracks are very fast and there are a lot of fake tiles. Also pls add search track function I can't see monkey dancing even though I look a lot of times I literally search the entire song list just for it but generally u should play it really well. This game is incredibly cool, and I mean very cool. I just want to say you can add more songs like Coffin Dance etc but so far this game has a very cool song, and today I got 1271 for a score for Dancing Monkey. It's like my mind exploded. So I thought there was a limit to the score or you could go into very high numbers. I would give this program five stars. As well as pls add a dance of coffins I appreciate that. P I'm sorry, I'm Little points to Long. I love the game but the only thing is that it will add a lot of ads as well as 7 loops please make it one of my favorite songs especially don't let me have a
